# ASSESSMENTS & EVALUATIONS

The overview of the assessments in the school is given as follows:

## Assessment Pattern

- 1) No formal examinations.
- 2) Teachers evaluate the students through comprehensive worksheets.
- 3) Total seven evaluations in a year.
- 4) Parents are given regular feedback during open days.

## EVALUATION SCHEME FOR PRE-PRIMARY CLASSES

Evaluation Scheme Sheet has been designed to assess the holistic development of pre-primary children. The building blocks of a child's cognitive, affective, and psycho-motor development are formed very early. The best way to help a child develop holistically is by providing a rich and stimulating environment at the pre-primary level—a learning environment that has been well planned and worked out. The competencies listed below are the minimum competencies expected at the pre-primary level. It is possible that a child may demonstrate a 'higher skill' while another may be 'almost there'. This sheet is only a cursory means of assessment.
